Read the passage and answer the following questions:

Section A – Reading
The Amazing Cheetah

Cheetahs have a **slender** body and long legs, making them look tall and elegant. They have beautiful furs with black spots all over their body, which helps them blend into the grasslands where they live. **3**

Cheetahs are the fastest land animals in the world! They can run up to 70 miles per hour (112 kilometres per hour) in short **bursts**. That's faster than a car on the highway! Cheetahs are found in Africa and some parts of Iran. They prefer open grasslands and savannahs, where they can spot their **prey** easily. **7**

Cheetahs are carnivores, which means they eat meat. They mainly eat small deer-like animals such as gazelles and impalas. Their incredible speed helps them chase and catch their prey. **10**

Cheetahs are facing threats to their survival. Habitat loss and **poaching** are causing a decrease in their population. It is important to protect these magnificent animals and ensure they have safe places to live. Cheetahs usually live for about 10 to 12 years in the wild. Cheetahs live together in a coalition. Did you know? Cheetahs cannot roar like other big cats, but they can make a variety of sounds such as purring, hissing, and chirping. **16**

Glossary:

Bursts - to move in one direction

Poaching - illegal hunting, capturing, or killing of wildlife

Prey - animals being hunted

Slender - thin or slim

Q1. Read lines 1 to 3 and answer the following.
