

CIE 2024-25

GRADE 2

SUBJECT – ICT

Chapter 3 - How Computer Works

Book back questions:

Q-1. Look at the pictures given below. Identify and write Input,

Process and Output below each image.

 <input type="text"/>	 <input type="text"/>	 <input type="text"/>
 <input type="text"/>	 <input type="text"/>	 <input type="text"/>
 <input type="text"/>	 <input type="text"/>	 <input type="text"/>
 <input type="text"/>	 <input type="text"/>	 <input type="text"/>

Q-II. Fill in the blanks using the hints given below.

Processing	Input	Output	Letters	CPU	Numbers	Pictures
------------	-------	--------	---------	-----	---------	----------

1. The keyboard is used to give _____ to the computer.
2. The CPU works on the input data, and it is known as _____.
3. Monitors, Printers are the common _____ devices used.
4. The data input to a computer can be _____ , _____ or _____.
5. The _____ works like a human brain and does all the calculations.

Q-III. State, whether the following statements are True or False.

1. A computer follows Input, Process and Output as three steps to work. _____
2. Keyboard is an output device. _____
3. Working on the data is called Processing. _____
4. The final result which we get from the computer is known as input. _____
5. The computer needs instructions from humans to work. _____

Q-IV. Circle the right option for the following questions.

1. The device used to give data to the computer.

2. The device used to get the output from the computer.

3. The processing unit of a computer.

4. The following picture shows that Alex is making toys with clay. Circle the picture that shows the Process state?

5. Paul wants to prepare mango juice. Circle the picture that shows the input state for a mango juice?

Q-V. For each row, mark each image as Input, Process or Output

Additional questions

I. Multiple choice questions.

1. The data that we give into the computer is _____.
a. Output b. Process c. Input

2. The calculation is done by _____.
a. Keyboard b. CPU c. Monitor

3. The part of the computer that displays output is the _____.
a. Keyboard b. Mouse c. Monitor
4. The result that we get from the computer is known as _____.
a. Input b. Output c. Data
5. Working on the data is known as _____.
a. Processing b. Data c. Result
6. A large amount of data is stored in the _____, which is present inside the CPU.
a. Keyboard b. Hard disk c. Printer

II. Fill in the blanks.

1. A computer follows three basic steps as IPO which stands for _____.
2. Hard disk is placed inside the _____.
3. The final result is called _____.
