

CIE 2024-25

GRADE 2

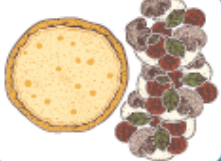

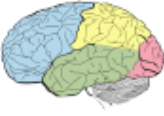

SUBJECT – ICT

Chapter 3 - How Computer Works

Book back questions:

Q-1. Look at the pictures given below. Identify and write Input,

Process and Output below each image.

 Process	 Input	 Output
 Output	 Input	 Process
 Process	 Output	 Input
 Output	 Input	 Process

Q-II. Fill in the blanks using the hints given below.

Processing	Input	Output	Letters	CPU	Numbers	Pictures
------------	-------	--------	---------	-----	---------	----------

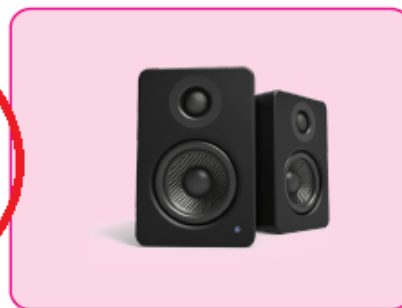

1. The keyboard is used to give **input** to the computer.
2. The CPU works on the input data, and it is known as **processing**.
3. Monitors, Printers are the common **output** devices used.
4. The data input to a computer can be **letters, numbers** or **pictures**.
5. The **CPU** works like a human brain and does all the calculations.

Q-III. State, whether the following statements are True or False.

1. A computer follows Input, Process and Output as three steps to work. **True**
2. Keyboard is an output device. **False**
3. Working on the data is called Processing. **True**
4. The final result which we get from the computer is known as input. **False**
5. The computer needs instructions from humans to work. **True**

Q-IV. Circle the right option for the following questions.

1. The device used to give data to the computer.

2. The device used to get the output from the computer.

3. The processing unit of a computer.

4. The following picture shows that Alex is making toys with clay. Circle the picture that shows the Process state?

5. Paul wants to prepare mango juice. Circle the picture that shows the input state for a mango juice?

Q-V. Complete the table by sticking the correct images from sticker sheet.

Input	Process	Output
		
		
		
		
		

Additional questions

I. Multiple choice questions.

- The data that we give into the computer is **Input**.
a. Output b. Process **c. Input**
- The calculation is done by **CPU**.
a. Keyboard **b. CPU** c. Monitor

3. The part of the computer that displays output is **the Monitor**.
- a. Keyboard b. Mouse **c. Monitor**
4. The result that we get from the computer is known as **Output**.
- a. Input **b. Output** c. Data
5. Working on the data is known as **Processing**.
- a. **Processing** b. Data c. Result
6. A large amount of data is stored in the **Hard disk**, which is present inside the CPU.
- a. Keyboard **b. Hard disk** c. Printer

II. Fill in the blanks.

1. A computer follows three basic steps as IPO which stands for **Input Process Output**.
2. Hard disk is placed inside the **CPU**.
3. The final result is called **Output**.
